I can't go outside for 7 days. Because I had Covid.

Covid ~~was~~ fear is stupid. I hate wearing mask. It was hard to wear mask all the time. Now, ~~we~~ we don't need mask anymore neither at school, neither outside. But, we still need it in the public transport, and in supermarkets.

If we have ~~now~~ covid, we should isolate ourselves, for seven days.

Bad news A new variant of covid had started somewhere in the World (Earth). We don't know yet if the vaccine works for it.

Good news The mask is now not needed in France, except for some places like public transport and supermarkets
